

FOR IMMEDIATE RELEASE

## **Axceler Introduces German Version of ControlPoint, Award-Winning SharePoint Administration Product**

**WOBURN, MA and BERLIN, GERMANY – November 8, 2010** – – [Axceler](#), the leader in [Microsoft SharePoint administration](#) and migration, today introduced the German language release of ControlPoint, the company's award-winning administration software for SharePoint. Demonstrating Axceler's commitment to localizing its products across the globe, Axceler ControlPoint for the German marketplace will be unveiled for the first time at Axceler's booth # E55 during Microsoft Tech-Ed Europe 2010, November 8-12 in Berlin, Germany. ControlPoint is now available in English, French, and German.

In addition to the German version of ControlPoint, the company announces a formal reseller partnership with Hamburg, Germany-based Layer2, which creates custom components and solutions, and provides consulting and services, for Microsoft SharePoint.

"We are pleased to extend the powerful capabilities of ControlPoint to the German speaking community as well as global, multilingual organizations," said Michael Alden, President and CEO, Axceler. "Our first German distribution partnership, with Layer2, enables us to make our solution readily accessible to the German SharePoint community."

ControlPoint, the leading [SharePoint administration](#) product for Microsoft SharePoint and winner of the most recent Best SharePoint Product award, includes comprehensive permissions management, in-depth activity and storage analysis and the ability to control SharePoint usage with policies. Axceler ControlPoint also gives administrators complete control over the configuration and deployment of their SharePoint environments.

Axceler recently introduced ControlPoint 4.1, which features detailed analysis and

-- more --

management of SharePoint groups; the ability to find duplicate files across a SharePoint farm; enhanced [SharePoint user reporting](#); proactive [SharePoint policy enforcement](#); and the ability to perform actions across multiple farms.

More information and the free trial download of the German language version of Axceler ControlPoint can be found [here](#).

### **About Axceler**

Axceler solutions enable enterprises to simplify, optimize, and secure their collaborative platforms and have delivered award-winning administration software worldwide since 1994. For Microsoft SharePoint, Axceler offers ControlPoint and Davinci Migrator. ControlPoint is the best way to get control over a SharePoint environment giving SharePoint professionals the ability to manage permissions, copy sites, analyze activity and much more. Davinci Migrator is a best of breed migration solution for organizations upgrading SharePoint 2003 and 2007 to SharePoint 2010. For more information visit <http://www.axceler.com>

### **About Layer2**

Layer2 is a specialist for creating [custom components and solutions](#) for Microsoft Office SharePoint Products and Technologies. Based in Germany, Layer2 offers products and solutions that add additional features to portals based on Microsoft SharePoint technology, e.g. Microsoft Office SharePoint Server 2007 (MOSS) or the free Microsoft Windows SharePoint Services 3.0 (WSS).
